

Optometry*London*

Our aim is to provide the best for each individual. To achieve this we like to get to know our patients so we can give them the best possible vision in every environment, whether that be at home, work, school, on the sporting field or in the gym.

In today's world there is a vast array of solutions for every visual need. Trust *OptometryLondon* to take the time to assess your eyecare requirements and offer a customised solution best suited for you.

Focused on *individual* eye care.

For more information or to arrange an appointment please call us on +44 (0)20 7323 5967 or email us Enquiry@OptometryLondon.com

Focused on *individual eye care.*

At *OptometryLondon* we like to discover what makes each individual unique, then customise a complete solution to provide the best vision for their lifestyle.

Our appointments are longer than those offered at other optometric practices, allowing us to learn about your eyes' history and discuss in detail your current visual needs. We then take our time when explaining the best possible solutions for maintaining healthy eyes and clear vision.

We are able to offer an extensive range of services. Our team, led by optometrist Mr Lyndon Ferguson, has the knowledge and experience to provide a wide scope of optometry services including:-

- Routine eye examinations
- Contact lens fitting and aftercare
- Children's vision assessments
- Low vision assessment and prescribing of low vision aids
- Dry eye management

OptometryLondon is based at the London Eye Diagnostic Centre, one of the most technologically advanced eye clinics in the UK. By combining the latest technology with the traditional values of sound clinical knowledge and good communication we are able to offer a comprehensive assessment of your eyes' health and therefore make the best possible recommendations. To learn more about the technology on offer, please contact us.

Short term meter parking in surrounding streets and long term car parking at NCP car parks in Cavendish Square and at the rear of Harley Street is available.
